The new colors are combined in three different collections:

Corian® Riverbed

FILTERED

Peer through a softened lens.

As though peering through a softened lens, **FILTERED** tells a story of subtle and grounded hues. It is a palette of colors light enough to be airy, yet with a connection to nature inspired patterns. Pale gray and white call to mind wispy clouds while tans, golds, and warm gray imply landscapes viewed through a sun-dappled haze.

The colors of **FILTERED** present an escape and offer the chance to daydream. They are at ease throughout the home, yet can also be a comforting spirit in office, retail and hospitality.

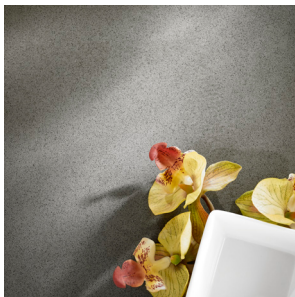

Corian® Deep Espresso

DEEP

Explore your dark side.

Rich, sumptuous hues offer a journey to the **DEEP** side of color, where delectable coffee, fertile earth, and luxuriously soft materials serve as the inspiration for colors and patterns that indulge your senses and sense of style.

Dark hues develop an ambience; creating an aura of mystery and enveloping spaces with subtle elegance. Innovative Corian® DeepColor™ Technology allows the creation of colors for an extraordinary new world of design possibilities. The never-ending chic of black is joined by luxurious browns and primeval greens that can be edgy, refined or lush. The choice is yours to create a **DEEP**, personal space with darker.

Zodiaq® Graphite

CATALYST

Make a statement!

Swaths of solid color and energetic patterns create tableaus of personal expression that take center stage no matter where they are. These are a **CATALYST** to spark a reaction and propel your design forward. Whether in vibrant combinations of pattern and texture, or color statements that stand on their own, making a statement about your space is key.

Standing out in the crowd is accomplished with gritty looks that show strength and raw power, or bold expressions in passionate red. Even normally quiet hues strike a design pose when rendered in wide strokes of color.

Making a statement is crucial for reception areas, high concept hospitality, and even home environments. Make your statement with a **CATALYST** color and pattern and launch an unforgettable design.

Dazzle and inspire your customers - be ready for what's **NEXT**; **The Surface Collection** of DuPont™ Corian® solid surface and Zodiaq® quartz surface.
